## PUBLIC LANDS TO STATE

FOR BENEFIT OF HIGHWAYS AND EDUCATIONAL INSTITUTIONS.

Plan Prepared by State Land Commissioner Ervien for Disposition of Remaining Public Lands in West.

Western Newspaper Union News Service.

Santa Fe, N. M.—The campaign recently launched by State Land Commissioner R. P. Ervien, has gained a great deal of attention throughout the entire west. Mr. Ervien's proposition is that all of the remaining public lands in the west, which is not reserved or otherwise appropriated, be turned over to the state in which it is located for the benefit of her public schools, or other educational institutions, highways, etc.

He shows that the government does not secure enough from its administration of public lands to cover expenses of handling same when the expenditures in the interior, agricultural and Treasury Departments are all taken into consideration.

On the other hand the western states have handled their lands in such a way as to derive large benefits from them for the public schools and other purposes for which they were granted, besides transferring a large part of them to private ownership by which they have become taxable and help support the government of the state, counties and school districts in which they are located, while the government lands, exempt from taxation, are of no benefit to the community in which they are situated.

The very large percentage of the poorer people of the western states, who would be benefited by the additional school money and taxable property, which would be a distinct relief to them, are interested in this campaign as well as the smaller stock men, who would have an opportunity of securing a small foothold on lands which are now monopolized and pastured in large tracts by the owners of large herds, who use the land for nothing and force the small owner out by entirely surrounding him and exhausting the range in his locality, which under the government laws, he is unable to fence or otherwise protect.

**Good Season for Angoras.**

**Must Settle With Jailor Separately.**  
Santa Fe.—Settlement with the county jailer under the provisions of the new county salary law must be made separately and not as a part of the sheriff's account, according to an opinion given by Attorney General Clancy for Deputy County Clerk Ed L. Safford.

**Honors Colorado Requisition.**  
Santa Fe.—Governor McDonald has honored a requisition from the governor of Colorado for the return to Denver of Guy L. Frazer, wanted here for non-support of his wife and minor children. He is under arrest at Silver City.

**Coal Output Breaks Record.**  
Albuquerque.—The production of coal in New Mexico in 1914 was 2,377,689 short tons, valued at \$6,220,371. This was the greatest coal output in the history of the state, according to C. E. Leisher, statistician of the United States Geological Survey. New Mexico is the only one of the Rocky Mountain states in which more coal was mined in 1914 than in 1913. The increase of 148,523 tons in quantity and \$229,611 in value is due to the greater output from Colfax and Santa Fe counties, which belong on the east front of the Rocky Mountains and not far distant from the larger Colorado fields, were able to supply a part of the demand normally furnished with coal from Colorado, from which the 1914 production was restricted because of the continued strike.

## RUSSIAN ARMY IN FULL FLIGHT

SLAVS DRIVEN FROM DNIESTER RIVER BANKS RETIRE SEVERAL MILES INTO HILLS.

## AN ATTACK AT WARSAW

BRITISH PUBLIC NOW CONVINCED THAT WAR WILL BE A LONG ONE.

Western Newspaper Union News Service.

London, June 29.—The Russians again are retreating in Galicia, both to the north and south of Lemberg, and in Poland the Germans have launched another attack against Warsaw in the form of a drive from the north through Przemysl. The new blow at the Polish capital has been preceded by a terrific artillery action.

The fact is recorded by the Russians themselves, but it is too early to say whether it means a serious offensive, the first clash having developed a bayonet encounter, the result of which neither side records.

What is more important, the Germans claim that the Teutonic forces have crossed the Dniester northwest of Halicz and have driven the Russians some miles into the hills.

A Russian official statement admits that the Russian forces on the front between Bobrka and Zurawa in Galicia, south of Lemberg, are falling back. The statement adds that in the Caucasus theater, in the region of Van, Turkish Armies, a battle between Russian troops and a great hostile force is in progress.

The text of the Austrian official statement follows:  
"After their defeat south of Lemberg, the Russian main army retreated to the eastward and with strong forces took up a position on the heights to the east of Mokolow."

"On this front our troops after several days' fighting, captured the enemy's advanced positions, then proceeded to storm the enemy's main position and finally penetrated the same at numerous points, throwing back the enemy notably along the sector near and to the south of Bobrka."

From June 21 until June 25 Gen. Boehm-Ermolli's army captured 170 officers and 14,100 men and took twenty-six machine guns.

Not since the war began has the English public been so convinced that it will be a long one. Those who took this view months ago were called pessimists, but now it generally is admitted that the Russian armies must fight for months to come under the tremendous disadvantages.

**SLATON IN MOB PERIL.**  
Troops Fire Upon Crowds Near Home of Georgia Governor As He Quits Office.

Atlanta, Ga., June 29.—Artillery, cavalry and infantry of the state militia stood guard Saturday night at the home of John M. Slaton, who retired as governor of the state, after rendering the office to Nat. E. Harris. During the day twenty-six men were arrested by the militia near the Slaton home, after several shots had been exchanged, and were held in the county jail. Firearms and explosives, it is alleged, were taken from them.

The guard about the Slaton home will be maintained, it was stated, until the adjutant general is satisfied that all danger as a result of committing the death sentence of Leo M. Frank has passed.

**U. S. TROOPS STOP HUERTA**  
El Paso, Texas, June 28.—In order to prevent a new revolution in Mexico, which is said to have been timed for today, United States troops arrested Gen. Victoriano Huerta, former President of Mexico, who was on his way here, and his military aide, Gen. Pascual Orozco. After detention under guard at Fort Bliss both men were released after giving heavy bonds to answer charges of conspiracy to incite a revolution against a friendly country. The charges were filed by the Department of Justice on instructions from the United States district attorney at San Antonio.

Huerta gave bonds for \$15,000 and Orozco for \$7,500. Within a short time after their arrest the two Mexican leaders were taken before George Oliver, United States commissioner; their bond approved and their hearing fixed for Thursday, July 1. Surety was furnished by Ike and Frank Alderete, May More and Rudolfo Cruz.
